<https://dictionary.cambridge.org/zht/>
3. 很好用的線上軟體，可以幫忙檢查文法錯誤，不論是推薦信CV或是PS都可以先丟上來自己檢查：[Grammarly](#)

Graduate Studies
University of Missouri

Dear [REDACTED]

Congratulations, you have successfully submitted your online Graduate Application to Mizzou!

The Mizzou graduate application process is a **two step process**. Now that you have completed the Graduate Studies application, your academic program will complete the initial application review once your application is complete. If you're accepted by your program, the Graduate Admissions Office will complete the final review to ensure you meet the University's minimum admission requirements.

While awaiting your program's decision, you may track the receipt status of application items such as transcripts, official test scores, and letters of recommendation listed in the [Application Checklist](#) by logging into your [application status page](#).

The successful submission of your application for admission does not necessarily mean your entire application package is complete. As an applicant, **it is your responsibility** to follow up with your [academic program](#) to ensure all required materials have been received.

Once graduate programs make initial admission decisions; you will be contacted by your academic program first with a decision. Please contact your academic program directly about your application or decision status. If you are accepted by an academic program, Graduate Admissions will notify you once your application has been reviewed or approved.

Please note that there are additional requirements for international applicants and click [here](#) for more details.

In the coming weeks, we will be sending important messages to **this email address**. If you change your email address, make sure you update your email address, by clicking on "Change Email Address" at the bottom of application status page.

Please [contact us](#) with questions or for assistance.
